

## What does GenerationR do?

GenerationR Liverpool YPAG meetings usually take place every 4 to 6 weeks on a Saturday at the Institute in the Park at Alder Hey Children's Hospital.

GenerationR members work with health researchers, by helping to design different types of research involving children and young people.

part of the GenerationR Alliance

## What is GenerationR?

GenerationR is a National Young Persons' Advisory Group (YPAG), made up of local groups across the UK who are part of the GenerationR Alliance.

GenerationR groups are usually made up of around 10 to 15 young people.

## Who can join GenerationR?

Any young person under the age of 24 can join GenerationR. Some young people have experience of a health condition, while others may just be interested in health.

## What activities do members of GenerationR get involved in?

There are lots of different things that GenerationR members can get involved in.

Here are some examples:

**Working with researchers on different health research projects**

**Designing information leaflets that are interesting for young people**

**Attending conferences and other meetings to represent GenerationR**

**Raising awareness of health research on social media**

**Attending courses and providing training to professionals**
