

GenerationR Liverpool Young Person's Advisory Group Agreement

The group will do lots of different things, including:

- Help researchers with their projects
- Tell other young people what researchers are finding out, and what the group is doing through summaries and via blogs on the GenerationR website www.generationr.org.uk
- Present at conferences to highlight the work and impact of the young peoples' groups

Group members should:

- Have an interest in health issues and research
- Come to at least 6 out of 8 meetings
- Be willing to learn new things and participate
- Confirm attendance to meetings, this could be either text or email to the group facilitator
- Stick to the agreed group rules
- Work as a team with other group members
- Respect other people's views
- Be punctual to meetings
- Don't leave in the middle of a session
- Ask questions if you're unsure
- Don't be afraid to speak and say what you think about something - even if negative (constructive criticism)
- Have fun!

Staff will:

- Organise the meetings/events and send details in good time
- Pay group members travel and expenses quickly and arrange vouchers for attending meetings
- Ensure we receive feedback from researchers about your input
- Make sure the meetings are interesting, safe and hopefully fun!

I confirm that I am happy to be a member of the group and understand what this will involve.
